REFLECT CHANGES IN RATE AND TEXT)	

O R D E R

Procedural Background

On July 10, 1985, Cincinnati Bell Telephone Company ("Cincinnati Bell") filed notice with this Commission requesting to increase its rates and charges for telephone service rendered to its Kentucky jurisdictional customers to uniform levels with those proposed in a similar rate proceeding in Ohio [Case No. 84-1272-TP AIR] to be effective on July 30, 1985. To determine the reasonableness of the proposed rates and charges, the Commission suspended the proposed rates for 5 months beginning July 30, 1985. On November 4, 1985, Cincinnati Bell filed its revised notice with the Commission which conformed to the reduced rates and charges approved in the final Order of the Ohio Public Utilities Commission.

The revised rates and charges produce additional annual revenues of approximately \$4,861,000. The Commission has accepted the revised rates and charges herein.

A public hearing was held in this matter on November 6, 1985, in the Commission's offices in Frankfort, Kentucky. The Consumer Protection Division of the Attorney General's Office ("AG"), AT&T Communications and the Grant County Chamber of Commerce were permitted to intervene.

Briefs were filed by Cincinnati Bell and the AG on November 27, 1985. All additional information requested has been submitted.

Cincinnati Bell is a wholly owned subsidiary of Cincinnati Bell, Inc., a holding company with approximately 17,000 shareholders, and furnishes communication services to portions of a 3-state area which includes Ohio, Indiana and approximately 108,000 access lines in Boone, Bracken, Campbell, Gallatin, Grant, Kenton, Harrison, Owen, Pendleton and Scott counties in Kentucky.

ANALYSIS AND DETERMINATION

Test Period

Cincinnati Bell proposed and the Commission has accepted the 12-month period ending May 31, 1985, as the test period in this case.

RATE UNIFORMITY

The major area served by Cincinnati Bell is the Cincinnati Metropolitan Service Area ("CMSA"), which encompasses portions of Ohio, Indiana and Kentucky. Customers residing within the CMSA can call anywhere within this area for the base monthly rate, thus making the CMSA one of the largest local calling areas in the nation.

Historically, the Kentucky Commission has adopted the rates set by Ohio as the fair, just and reasonable rates for the Kentucky customers residing in the CMSA. This rate-making approach recognized the CMSA as a single local service calling area and helped to foster area growth, benefiting customers in Kentucky and other jurisdictions.

In implementing rate uniformity within the CMSA, Cincinnati Bell has historically allocated utility plant and expenses to the Kentucky and Ohio jurisdictions on a "revenue split" basis which has been approved by both the Ohio and Kentucky Commissions in previous proceedings. The revenue split method is applicable when the revenue ratios reflect appropriate proportions of total plant and expenses and rates required for service are substantially uniform in each jurisdiction. Rate uniformity and its revenue split method of separations are consistent with the concept of the CMSA being a single local calling unit rather than the traditional multi-jurisdictional concept.

Cincinnati Bell has customarily filed for rate increases with the Ohio Commission prior to filing with the Kentucky Commission. This affords the Ohio Commission the opportunity to establish the rates for the CMSA which the Kentucky Commission can either accept or reject for the Kentucky jurisdictional portion of the CMSA. Acceptance of the Ohio rates maintains the rate uniformity/revenue split separation method while rejection of the Ohio rates would require this Commission to adopt the usage method of separation. In this proceeding the Commission required Cincinnati Bell to supply financial information for the test

period under both separation methods in order to determine the financial impact of each alternative on the Kentucky jurisdictional ratepayers. The AG in its brief proposed numerous adjustments to Cincinnati Bell's exhibits filed in this case and this Commission has calculated the revenues that would be required under usage separation if adjustments were made by the Commission to be consistent with its rate-making practices, many of which are different than those established in Ohio or those requested by Cincinnati Bell herein. The inclusion of an attrition adjustment is an example of one such difference. The Kentucky Commission is concerned with these differences in approach between the Kentucky and Ohio jurisdictions and Cincinnati Bell and while convinced that the benefits enjoyed by the Kentucky jurisdictional ratepayer under rate uniformity in this proceeding exceed any differences in regulatory approach existing between the Kentucky and Ohio Commissions, those benefits will be closely evaluated in future proceedings. Therefore, without specifically ruling on the findings made by the Ohio Commission, it is the opinion of this Commission that rate uniformity within the CMSA should be approved herein.

RATE DESIGN

Optional Measured Service

Cincinnati Bell has proposed to expand its optional low use and standard measured service ("OMS") to additional Kentucky exchanges as technology permits. As a basis for this expansion Cincinnati Bell contends that OMS provides telephone consumers the opportunity to control their local telephone bills, thus, it

encourages universal service. However, in this proceeding Cincinnati Bell stated, "Due to stipulations reached in that rate case (Ohio rate case) recommending a higher low use measured service rate than originally proposed Cincinnati Bell Telephone no longer views low use measured service as a lifeline alternative".¹

In Administrative Case No. 285² the Commission established a generic proceeding to investigate the economic and regulatory feasibility of adopting local measured service. Cincinnati Bell has participated in this proceeding as a member of the oversight committee; however, Cincinnati Bell has declined the opportunity to conduct a measured service research project in its market area. Furthermore, in response to the Commission's second data request, Cincinnati Bell stated it had not prepared a cost/benefit analysis with respect to optional measured service in its territory. The Commission continues to be concerned with the expansion of measured service without proper information and cost/benefit analysis. Therefore, the Commission will place a moratorium on any further expansion of Cincinnati Bell's measured service in all exchanges pending the outcome of Administrative Case No. 285.

Exchange Rate Tariff

Cincinnati Bell proposed to increase exchange access rates and message and measured service usage rates approximately 17 percent. In addition, Cincinnati Bell proposed to eliminate four

¹ Cincinnati Bell Telephone's Response to Public Service Commission's Staff's Request No. 2, October 28, 1985, Item 4.

² An Investigation Into the Economic Feasibility of Providing Local Measured Service Telephone Rates in Kentucky.

unpopulated rate groups, "grandfather" several service offerings, waive initial changes in certain situations, and introduce rate period specific measured service usage billing.

The Commission will approve Cincinnati Bell's adjustments to exchange rates as proposed. Also, the Commission will approve elimination of unpopulated rate groups and the introduction of rate period specific measured service usage billing for those customers who already have measured service.

Cincinnati Bell proposed to "grandfather" residence two-party message rate service, nonresidence individual and trunk line message rate service, and local area service in exchanges where both local area service and Cincinnati metropolitan area service are offered. These services would be "grandfathered" as measured service is made available or, where it is already available, on the effective date of tariffs authorized in this case. Furthermore, these services would be withdrawn 2 years after the date on which they are "grandfathered".

The Commission is of the opinion that "grandfathering" these services is reasonable, and will approve "grandfathering", as relatively few customers select these service options. However, the record in this case indicates a degree of uncertainty on the part of Cincinnati Bell as to the impact of a measured service moratorium on its "grandfathering" proposals.³ Therefore, although this Order permits "grandfathering", the Commission will also allow Cincinnati Bell to retain these services, at its

³ Transcript of Evidence, November 6, 1985, page 255.

option upon review of this Order and the filing of an appropriate motion. In the opinion of the Commission, such flexibility is reasonable in view of the uncertainty in the record and since neither "grandfathering" nor retaining these services affects revenue requirement in this case.

As well as "grandfathering", Cincinnati Bell proposed a 90-day waiver of service order charges for customers converting to measured service and a 2-year waiver of service order charges for customers converting from "grandfathered" services to alternative service offerings. The measured service moratorium renders the former proposal moot. The latter proposal should be approved.

General Exchange Tariff

Cincinnati Bell proposed various rate adjustments and other changes to general exchange services, including a cost-based returned check charge, unbundling of autoquote service, a 17 percent increase in touch-tone calling services, varying increases to custom calling services, restructured direct-inward-dialing service, and miscellaneous other adjustments and changes. In the opinion of the Commission, these general exchange tariff proposals are reasonable and should be approved.

Private Line Tariff

Cincinnati Bell proposed to increase private line recurring and non-recurring charges approximately 23 percent, except for certain alarm services and premises work charges, resulting in an overall increase in private line revenue of approximately 20 percent. In addition, Cincinnati Bell proposed a customer operating center service plan. The Commission is of the opinion

that Cincinnati Bell's private line tariff proposals are reasonable and should be approved.

Mobile Telephone Tariff

Cincinnati Bell proposed to increase mobile telephone services approximately 17 percent. The Commission is of the opinion that this adjustment is reasonable and should be approved.

In a related matter, on May 31, 1985, Cincinnati Bell filed a tariff with the Commission proposing to "grandfather" flat and message rate mobile telephone service and to withdraw these service offerings 2 years after the date of "grandfathering". Also, Cincinnati Bell proposed to immediately withdraw mobile dispatching service and transfer signaling service to its general exchange tariff. On June 18, 1985, the tariff filing was suspended and assigned Case No. 9355.⁴

At hearing on November 6, 1985, counsel for Cincinnati Bell, Mr. David Olson, made a motion to incorporate Case No. 9355 into this case and on November 14, 1985, Cincinnati Bell waived the suspension period in Case No. 9355.

The Commission is of the opinion that Case No. 9355 should be consolidated with this case and that Cincinnati Bell's proposals to "grandfather" flat and message rate mobile telephone service, withdraw flat and message rate mobile telephone service after 2 years, immediately withdraw mobile dispatching service,

⁴ The Tariff Application Of Cincinnati Bell Telephone To Reflect Changes In Rates And Text.

and transfer signaling service to its general exchange tariff should be approved.

Customer Premises Equipment Tariff

Cincinnati Bell proposed adjustments to jack rates based on materials cost. No adjustments were proposed to other categories of customer premises equipment due to impending detariffing of customer premises equipment. The Commission is of the opinion that Cincinnati Bell's proposals concerning customer premises equipment are reasonable and should be approved.

CABLE TELEVISION POLE ATTACHMENTS

AND CITY OF WILLIAMSTOWN FRANCHISE

In the Commission staff's cross examination of Mr. William W. Victor,⁵ Senior Vice President of Cincinnati Bell, it was revealed that the utility has recently entered into a new franchise agreement with the city of Williamstown, Kentucky. The franchise agreement includes provisions relative to the joint use of poles owned individually by Cincinnati Bell and by the city of Williamstown for attachments of telephone cables and electric lines. Such agreement, when entered into as a contract by the parties, would be similar to joint use pole agreements as utilized extensively by telephone and electric utilities in Kentucky.

However, as part of the subject franchise, the cable television ("CATV") pole attachments of Williamstown's city-owned CATV system are granted attachment rights to Cincinnati Bell's

⁵ T.E., Testimony, November 6, 1985, pages 121-138.

poles without any explicit fees for such attachments.⁶ In Administrative Case No. 251-4,⁷ by Order dated June 1, 1983, Cincinnati Bell's tariff which sets forth rates and terms for CATV pole attachments was approved. In the subject tariff, explicit rates for such CATV pole attachments are specified. While joint use pole agreements normally imply implicit value to both parties in the matter of pole attachments, Cincinnati Bell in this instance has failed to apply its approved tariff in accordance with KRS 278.160. Additionally, 807 KAR 5:011, Section 13, of the Commission's regulations provide that a utility may file copies of special contracts, subject to the approval of the Commission, which govern the provision of utility service under special conditions to particular customers. No evidence was presented to indicate that Cincinnati Bell has requested the Commission's approval of any special contract for the CATV pole attachments in question.

In the instant case the Commission makes no finding relative to whether the circumstances involved in the provision of CATV pole attachment space, which includes the joint provision of poles by both Cincinnati Bell and the city-owned electric system, create a situation where a special contract would be applicable. However, Cincinnati Bell is advised that CATV pole attachments must be subject to its approved tariff governing such attachments,

⁶ Ibid., page 127.

⁷ The CATV Pole Attachment Tariff of Cincinnati Bell, Inc.

or in the alternative the utility should request the Commission's approval of a special contract which would govern the provision of such service.

FINDINGS AND ORDERS

After examining the evidence of record and being advised the Commission is of the opinion and finds that:

1. The rates and charges approved by the Public Utilities Commission of Ohio in Case No. 84-1272-TP-AIR, except as specifically approved or disapproved herein, and in Appendix A are the fair, just and reasonable rates to be charged by Cincinnati Bell for telephone service rendered to its Kentucky jurisdictional customers inside the CMSA and should be approved for service rendered on and after the date of this Order.

2. The rates and charges proposed by Cincinnati Bell for its Kentucky jurisdictional customers residing outside the CMSA as amended herein and in Appendix A are the fair, just and reasonable rates to be charged for telephone service to these customers and should be approved for service rendered on and after the date of this Order.

3. OMS should not be expanded until the results of Administrative Case No. 285 are known.

4. Cincinnati Bell's proposed rate adjustments to its exchange rate tariff should be approved.

5. Cincinnati Bell's proposed elimination of unpopulated rate groups should be approved.

6. Cincinnati Bell's proposed introduction of rate period specific measured service usage billing should be approved.

7. Cincinnati Bell's proposed "grandfathering" of residence two-party message rate service, nonresidence individual and trunk line message rate service, and local area service should be approved, absent the filing of a motion by Cincinnati Bell to retain these services within 20 days from the date of this Order.

8. Cincinnati Bell's proposed waiver of service order charges for customers converting to measured service should not be approved.

9. Cincinnati Bell's proposed waiver of service order charges for customers converting from "grandfathered" services to other services should be approved, contingent on the filing of any motion resulting from finding number 7.

10. Cincinnati Bell's proposed rate adjustments and other changes to its general exchange tariff should be approved.

11. Cincinnati Bell's proposed rate adjustments and other changes to its private line tariff should be approved.

12. Cincinnati Bell's proposed rate adjustments to its mobile telephone tariff should be approved.

13. Case No. 9355 should be consolidated with this case.

14. Cincinnati Bell's proposed "grandfathering" of flat and message rate mobile telephone service should be approved.

15. Cincinnati Bell's proposed withdrawal of mobile dispatching service should be approved.

16. Cincinnati Bell's proposed transfer of signaling service to its general exchange service tariff should be approved.

17. Cincinnati Bell's proposed rate adjustments to its customer premises equipment tariff should be approved.

IT IS THEREFORE ORDERED that:

1. The amended rates and charges set by the Public Utilities Commission of Ohio in Case No. 94-1272-TP-AIR for the Cincinnati Metropolitan Service Area of Cincinnati Bell, Inc., except as otherwise specifically approved or disapproved herein, and set out in Appendix A, are the fair, just and reasonable rates to be charged by Cincinnati Bell, Inc., for telephone service rendered in the Kentucky jurisdictional portion of the Cincinnati Metropolitan Service Area on and after the date of this Order.

2. The rates and charges proposed by Cincinnati Bell, Inc., and in Appendix A, for the Kentucky jurisdictional portion of the areas outside the Cincinnati Metropolitan Service Area are the fair, just and reasonable rates to be charged for telephone service rendered in these areas on and after the date of this Order.

3. OMS shall not be expanded in any exchange pending the outcome of Administrative Case No. 285.

4. Cincinnati Bell's proposed adjustments to its exchange rate tariff be and they hereby are approved.

5. Cincinnati Bell's proposed elimination of unpopulated rate groups be and it hereby is approved.

6. Cincinnati Bell's proposed introduction of rate period specific measured service billing be and it hereby is approved.

7. Cincinnati Bell's proposed "grandfathering" of residence two-party message rate service, nonresidence individual and trunk line message rate service, and local area service be and they are hereby approved, absent the filing of a motion by

Cincinnati Bell to retain these services within 20 days from the date of this Order.

8. Cincinnati Bell's proposed waiver of service order charges for customers converting to measured service be and it hereby is denied.

9. Cincinnati Bell's proposed waiver of service order charges for customers converting from "grandfathered" services to other services be and it hereby is approved, contingent on the filing of any motion resulting from Order number 7.

10. Cincinnati Bell's proposed rate adjustments and other changes to its general exchange tariff be and they hereby are approved.

11. Cincinnati Bell's proposed rate adjustments and other changes to its private line tariff be and they hereby are approved.

12. Cincinnati Bell's proposed rate adjustments to its mobile telephone tariff be and they hereby are approved.

13. Case No. 9355 be and it hereby is consolidated with Case No. 9353.

14. Cincinnati Bell's proposed "grandfathering" of flat and message rate mobile telephone service be and it hereby is approved.

15. Cincinnati Bell's proposed withdrawal of mobile dispatching service be and it hereby is approved.

16. Cincinnati Bell's proposed transfer of signaling service to its general exchange tariff be and it hereby is approved.

17. Cincinnati Bell's proposed rate adjustments to its customer premises equipment tariff be and they hereby are approved.

18. Cincinnati Bell shall file revised tariff pages with the Commission within 20 days from the date of this Order, stating the rates and charges, and terms and conditions of service approved in this Order.

Done at Frankfort, Kentucky, this 30th day of December, 1985.

SECTION 1

GENERAL REGULATIONS

<u>Mileage Tier</u>	<u>Initial Minute</u>	<u>Each Additional Minute</u>
1 (0 through 12 miles)**	\$ 0.06	\$ 0.02
2 (13 through 36 miles)**	0.08	0.04
3 (27 miles and over)**	0.12	0.05

* See Section 2 of this tariff for monthly charges and usage allowances.

** Airline mileages between central office buildings serving the called and calling access lines are computed mathematically, employing as a base vertical (V) and a horizontal (H) coordinate for each central office, as determined from its latitude and longitude location using appropriate map projection equations.

f. A 50% discount applies to that portion of the messages occurring within the rate discount periods shown below:

- (1) From 9:00 P.M. to but not including 8:00 A.M., on Monday through Friday.
- (2) All day Saturday, Sunday and certain holidays. The holidays are New Year's Day (January 1), Independence Day (July 4), Christmas Day (December 25); and Labor Day and Thanksgiving Day (or their resulting legal holidays).

g. A complete table of usage rates, including discounts, is listed below.

<u>Mileage Tier</u>	Usage Rates		Discount Rates	
	<u>Initial Min.</u>	<u>Add'l Min.</u>	<u>Initial Min.</u>	<u>Add'l Min.</u>
1	\$ 0.060	\$ 0.020	\$ 0.030	\$ 0.010
2	0.080	0.040	0.040	0.020
3	0.120	0.050	0.060	0.025

EXCHANGE RATE TARIFF

SECTION 1

GENERAL REGULATIONS

- j. A customer may change to Optional Measured Service from another type or grade of exchange access line without the payment of the initial charge within 90 days after Optional Measured Service becomes available in the central office area in which the customer is located and within 90 days after the rate increase becomes effective in Case Number 9353. *
- k. A customer dissatisfied with Optional Measured Service may change from Optional Measured Service to an available service free of initial charges provided the customer makes the change within 90 days from the time the customer changed to or purchased Optional Measured Service. *
- * A customer may be exempted from initial charges only once for a change to and only once for a change from Optional Measured Service within each 90 day period in which no initial charge is waived.

8. Grandfathered and Discontinued Services

- a. Grandfathered services are available only for existing customers. They are not furnished for new installations, regrades, or moves. The following services are grandfathered in central offices with Optional Measured Service availability as of the effective date of this regulation. Also, in central offices where Optional Measured Service is not available as of the effective date of this regulation, the following services are grandfathered when Optional Measured Service becomes available.

- (1) All Local Area Services
- (2) Two-Party Flat Rate Service

- b. These grandfathered services will become discontinued services 2 years from the date of grandfathering.
- c. A customer with a grandfathered service may change to an available service free of initial change charges.

9. Conversion to Two-Party Flat Rate Service

A customer may convert to Two-Part Flat Rate Residence Service free of initial change charges within a period of 90 days from the effective date in Case Number 9353.

C. USE OF SERVICE AND FACILITIES

2. Connections of Customer-Provided Terminal Equipment and Communication Systems

b. Connections of Registered Equipment

(2) Premises Wiring Associated with Registered Communications Systems

(d) The Institutional Program for Premises Wiring Charge is comprised of the first, or a combination of both rate elements described below, as appropriate:

Element 1 - for the first 15 minutes, or fraction thereof, of total time spent by Telephone Company employees in related monitoring or participation in acceptance tests and/or in related inspection of customer-provided premises wiring for Communications Systems subject to Part 68 of the Federal Communications Commission's Rules and Regulations, and for administrative expenses including the visit to the Customer's premises - \$55.15

Element 2 - for each additional 15 minutes, or major fraction thereof, of total time spent by Telephone Company employees in performing the related customer-premises activities described in Element 1 preceding -\$11.10

D. ESTABLISHMENT AND FURNISHING OF SERVICE

8. Payment for Service

f. Returned Check Charge

A \$9.00 administrative charge will apply on each occasion a check, draft or electronic funds transfer item is presented for payment for service by a subscriber and is not accepted by the institution upon which it is drawn.

GENERAL EXCHANGE TARIFF

SECTION 2

GENERAL REGULATIONS

9. Denial and Restoral of Service

When the service of a customer has been temporarily denied in accordance with the preceding paragraph but the contract has not been terminated or the order to remove the service has not been issued and completed, such service will be restored, following adjustment of the circumstances that caused such temporary denial, upon the payment of a restoration charge per exchange access line of \$18.30 for residence service and \$18.30 for nonresidence service. In case service has been denied for non-payment of charges due, in addition to the restoration of service charge, the customer will be required to pay all charges due. Temporary denial status will be maintained for a minimum period of 5 days after which time the service will be discontinued. Subsequent to the completion of a discontinuance order, service will be reestablished only upon the basis of a new service application.

10. Maintenance and Repairs

c. Visits made by the Telephone Company to the customer premises where a service difficulty or trouble report results from the customer-provided equipment or facilities

- (1) First 15 minutes or fraction thereof ...
\$31.50
- (2) Each additional 15 minutes or fraction thereof ... \$9.00

19. Direct Delivery Service

b. Charges

- (1) Delivery will be by common carrier and the customer will be charged at the common carrier scheduled rates, plus a handling charge of \$4.10 per transaction. A transaction is defined as including the handling of all telephones or other equipment provided at the same time. These shipping and handling charges are in addition to any other applicable rates and charges as specified in this or other applicable tariffs.

GG. MAKE BUSY OR BREAK HUNT

2. The features are provided only with individual line service, subject to the availability of facilities. The make busy or break hunt feature uses equipment arrangements in the central office as are considered standard by the Telephone Company.
3. A private line channel is required between the serving central office and the customer location for control. A closure on the control channel is required at the customer's control location to activate and deactivate the features. This closure is normally provided by an externally mounted locking type key (cut off key).
4. Provision of these features are based on the serving central office and the customer control location being in the same central office area. When the serving central office and the customer control location are not in the same central office area, charges equivalent to the estimated cost to be incurred apply for any additional equipment or facilities required to provide the features.
5. The following rates and charges apply in addition to the rates and charges applicable to any other service or equipment:

SECTION 15

PRIVATE BRANCH EXCHANGE SERVICE

B. RATES FOR STANDARD EQUIPMENT

4. Direct Inward Dialing (DID) to Switching Systems Located on Customer Premises

(a) General

1. DID service is furnished subject to the availability of facilities and numbers. This service is furnished from a Telephone Company central office on trunk lines (excluding FX and WATS) to customer premises switching equipment equipped for compatible DID operation.
2. This service includes the central office switching equipment necessary for inward dialing from the central office directly to stations associated with the customer premises switching equipment.
4. The rates and charges specified in (2) following contemplate the use of equipment and serving arrangements considered standard by the Telephone Company. If nonstandard equipment or service is requested and provided, rates and charges will be based on the costs involved.
5. DID service is furnished upon the condition that the customer must subscribe to central office trunk service adequate in the judgment of the Telephone Company to permit the use of DID service without injurious effect upon general telephone service. Acceptable grade of service is defined as follows:

Grade of service should be based on the time consistent busy hour with the probability of incoming call blocking engineered at 8.01 or less based on the Revised Neal-Wikinson Tables.

GENERAL EXCHANGE TARIFF

SECTION 15

PRIVATE BRANCH EXCHANGE SERVICE

6. When DID service is furnished in connection with customer premises equipment, regulations and charges for interconnection, regulations and charges for maintenance of service, and general regulations apply as specified in this tariff. Operational characteristics of interface signals between the Telephone Company provided interconnection and the customer provided switching equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards.
7. The Telephone Company shall not be responsible to the customer, authorized user or joint user if changes in the Telephone Company's protection criteria, facilities, operations, or procedure cause the facilities provided by a customer, authorized user, or joint user to be obsolete, or to require modification.
8. One primary listing will be furnished without charge for each separate trunk group as specified in Section 6 of this tariff for PBX service. Rates and charges as specified therein shall apply for each regular additional listing desired for DID numbers furnished as part of this service.
9. Customer premises equipment must be arranged by the customer to provide for the interception of calls to vacant and nonworking assigned DID numbers.
10. DID numbers in groups of 20 may be reserved for future use at rates specified herein. The Telephone Company does not guarantee to provide reserve numbers arranged in a consecutive manner. The Telephone Company will be responsible for interception and administration of these numbers.
(b) The following rates and charges apply in addition to the rates and charges applicable to any other service or equipment which this service is associated, e.g. trunk line rate:

PRIVATE BRANCH EXCHANGE SERVICE

		<u>Initial Charge</u>	<u>Monthly Rate</u>
DID service for:			
1.	First 100 DID numbers	\$39.90	\$298.50
2.	Each additional 100 DID numbers	39.90	59.65

(X) Grandfathered schedule of rates and charges. No new installations will be provided under this schedule. Moves to a new location or transfer of contract shall terminate the schedule. Customers may convert to the following new schedule of rates and charges without paying the initial charges on either the working DID trunk terminations in the central office or the group of 20 DID numbers converted from the group of 100 DID numbers. Existing customers may add or remove additional 100 DID numbers within this schedule of rates and charges. Once an existing customer removes the rate element of first 100 DID numbers, the customer may not reinstate this schedule. Customers may obtain DID service under one schedule, but not both.

(b) The following rates and charges apply in addition to the rates and charges applicable to any other service or equipment which this service is associated, e.g. trunk line rate:

	<u>Initial Charge</u>	<u>Monthly Rate</u>
3.	Each group of 20 DID numbers (Note)	\$200.00 \$ 4.00
4.	DID Trunk Termination in central office, each in addition to the Exchange Rate Tariff trunk line	135.00 39.00

Note: The Initial Charge applies to the first group of DID numbers only.

5. Identified-Outward-Dialing (IOD) From Switching System Located on Customer Premises

OPERATOR SERVICES CHARGES

A. DIRECTORY ASSISTANCE SERVICE

1. GENERAL

2. APPLICATION OF CHARGES AND ALLOWANCES

a. There will be a charge for all customer calls to Directory Assistance except:

1) Call Allowances

2) Exceptions

- calls placed from public and semi-public telephones

- direct dialed calls from hotels and motels that maintain rooms for occupancy by guests for periods of less than one month, that have a substantial proportion of guest rooms regularly so occupied, and that provide telephones in the majority of the guest rooms.

- direct dialed calls from hospitals and skilled nursing homes.

for purposes of this paragraph, the term skilled nursing home applies to those nursing homes that provide around-the-clock professional nursing care.

- calls from Exchange Access Lines where the customer or a member of the customer's household has been certified by a registered physician as unable to use a directory because of a visual or physical handicap.

3. RATES

1. Where the customer direct dials the Directory Assistance number the charge for each call (maximum of two requested telephone numbers per call) is \$0.40

2. Where the customer places a call to the Directory Assistance attendant via an operator, the charge for each call (maximum of two requested telephone numbers per call) is \$0.65

B. LOCAL OPERATOR VERIFICATION/INTERRUPTION SERVICE

3. Rates

- a. Verification: A charge of \$0.60 applies each time the operator verifies a called line and hears voice communication.
- b. Interruption: A charge of \$1.15 applies each time the operator interrupts a conversation that is in progress on the called line. The charge is for the interrupt service and does not depend on whether the called party agrees to release the line and accept the call.

CUSTOMER OPERATING CENTER

The term Customer Operating Center denotes a customer location from which the customer furnishes and administers services such as burglar alarm and telephone answering services to multiple patrons.

3. CHANNELS

3.1 General

3.1.3 Service Configurations

D. Other

1. The following types of service have special configurations which are described in the regulations applicable to the specific service:
 - d. Private Lines which are furnished as Customer Operating Center Service (see 3.1.11).

PRIVATE LINE TARIFF

3.1.10 Joint Use Arrangements

When a customer requests that his service be arranged for joint use, the charges for the service shall be determined as provided in this tariff and in addition a charge per month of \$22.15 or 10 percent of the charge for the interexchange private line service applies, whichever is greater.

3.1.11 Customer Operating Center Service

A. Regulations

- 1) Customers who utilize large quantities of circuits between their premises and their normal serving central office, in connection with burglar alarm and telephone answering services, may optionally subscribe to Customer Operating Center Service (COCS). COCS is an arrangement whereby the Telephone Company provides dedicated complements of cable pairs between the customer's premises and the normal serving central office when the airline distance between the two locations is one mile or less.
- 2) Customers of COCS are billed for all circuits which are connected through the dedicated pairs, i.e., for any interoffice mileage and local channels between their patron's premises and the patron's serving central office, in addition to the portions of such circuits in the dedicated pairs.
- 3) At the time COCS is initially requested, the customer must furnish an estimate of the number of cable pairs he wishes to have dedicated to his use. Complements are offered in 100, 200, 300, 600, 900, 1200 and 1500 pair cables. The rates and charges for the complements of cable pairs as specified in B.2 following. The monthly rates are applicable for each month the customer retains the service, regardless of whether or not individual circuits within the cable complement are activated.
- 4) Length is measured in one quarter mile increments from the customer's premises to the normal serving central office. The maximum length furnished under COCS in one mile.
- 5) In addition to the rates for the dedicated cable pairs, the rates and charges specified in B.3, following, apply for each channel activated.

PRIVATE LINE TARIFF

- 6) A Maximum Termination Liability will apply for any facility specifically installed for a customer for which no reuse is foreseen if the initial use is discontinued. The Maximum Termination Liability is for 4 years and reduces 1/48 for each month that the cable complement is in service.
- 7) If, after subscribing to a complement of cable pairs of specified size, the customer wishes to decrease the number of pairs in the cable complement, he must subscribe to a new complement of pairs and make payment of all applicable charges for both complements, including any unexpired Maximum Termination Liability for the service which is discontinued.
- 8) Any existing state private line customer converting to COCS will receive a credit against the dedicated cable pair complement non-recurring charge in the amount of one-half of any previously paid special construction charge, up to one-half the amount of the nonrecurring charge; provided the customer elects COCS within 60 days of the effective date of Cincinnati Bell Telephone Company's COCS offering.
- 9) The COCS nonrecurring charges for the dedicated complement of cable pairs will be paid in four equal installments on a quarterly basis over a period of one year. When credit is given in the full amount set forth in Paragraph 8 above, the remaining amount of such non-recurring charges shall be paid in full prior to the establishment of service. In the event that less than full credit set forth in Paragraph 8 above is given, the state private line customer will have 60 days to make payment in full.
- 10) Any existing private line customer electing COCS within the aforementioned 60-day period will be given a credit toward the 4-year Maximum Termination Liability for the period of time its cable has been in service.
- 11) The circuit activation initial charge will be waived for conversion of customers' existing circuits to COCS, provided no physical modification of circuits is required.
- 12) Channel types available for COCS may be mixed within a dedicated complement of cable pairs.

3.1.12 Nonrecurring Charges

A. Description of Charges

1. Initial charges are nonrecurring charges associated with the installation of service and facilities. The Initial Charges apply as follows:
 - e. Per Dedicated Complement of Cable Pairs associated with Customer Operating Center Service.
 - f. Per Channel Option including conditioning, signaling, alternate use arrangements and switching arrangements when installed subsequent to the initial installation of the associated channel. This charge also applies to change from one channel option to another.

PRIVATE LINE TARIFF

- g. Per Terminal equipment provided by the Telephone Company. See Customer Premises Equipment Tariff for specific application of nonrecurring charges for Terminal equipment.

- h. Per Inside Wire - new

The Inside Wire - new Initial Charge is a charge for the placement of wiring within a building to effect the connection of terminal equipment to private line service. One such charge applies for the installation, move or change of each connecting block or jack which entails the placement of inside wiring. The rates and regulations for inside wiring are the same as those for Exchange Station Lines, as specified in Section 8 of the General Exchange Tariff.

- i. Per Inside Wire - reused

The Inside Wire - reused Initial Charge applies for reactivating existing wiring to effect the connection of terminal equipment to private line service. This charge has application only where adequate wiring is in place and service can be provided using only existing wiring. The rates and regulations for inside wiring are the same as those for Exchange Station Lines, as specified in Section 8 of the General Exchange Tariff.

PART I SECTION 8

STATION SETS AND EXCHANGE STATION LINES

D. Customer Responsibility for Return of Station Sets

1. General

- c. Where the customer responsibility is not met and the Telephone Company fails to recover the station sets from the customer, a nonrecurring charge will be billed to the customer to recover the costs that the Telephone Company must incur for each station set that is not recovered. The customer will not be held responsible for this charge where the Telephone Company does not recover its station sets due to natural disasters.
- d. The nonrecurring charge billed to the customer will never be greater than the current sold in-place purchase price as specified in Section 2 of the Customer Premises Equipment Sale Tariff. The sales price formula as stated in Section 3 of the Sale Tariff will be used in determining the nonrecurring charge for all other billable equipment.
- e. All station sets for which the customer has been billed the unrecovered station set charge remain the property of the Telephone Company. It is not intended that ownership of the station sets transfer to the customer upon payment of the charge.
- f. If the customer subsequently returns the station sets for which the unrecovered station set charge has been billed, the Telephone Company will refund the charge.

D.2. (Reserved)

Unrecovered station set charges deleted.
